Art Unit: 2835

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The allowability resides in the overall structure of the device as recited in independent apparatus claims 1 and 10, and in independent method claim 15, and, at least in part, because:

Claim 1 recites: "a second latching moveable shuttle formed within the first shuttle [...] wherein in the second switch state an opening in the second shuttle aligns with an opening in the wafer to enable an optical signal to pass through the aligned openings";

Claim 10 recites: "a latching movable shuttle switch formed in the second layer and having the first layer removed under the shuttle switch [...] a first circular window formed therein which is vertically aligned but horizontally displaced from a second circular window formed in the wafer [...] the shuttle switch is moved so that the first circular window is horizontally moved in the first direction to be aligned over the second circular window";

Claim 15 recites: "latching a first movable shuttle formed in the second layer and having the first layer removed under the first movable shuttle [...] latching a second movable shuttle formed within the first shuttle".

The aforementioned limitations in combination with all remaining limitations of the remaining claims are believed to render the present invention unpatentable as claimed.

None of the references cited during prosecution of the instant application, either taken alone or in combination is believed to render the present invention unpatentable as claimed.

Application/Control Number: 10/766,451 Page 3

Art Unit: 2835

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anatoly Vortman whose telephone number is 571-272-2047. The examiner can normally be reached on Monday-Friday, between 10:00 am and 6:30 pm..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ms. Lynn Feild can be reached on 571-272-2092. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
